What We Do

Created and designed by our own software developers, the USC Accounting System is the perfect accounting software solution for any size organization. Over the last 40 years we’ve worked diligently to craft an easy-to-use, customizable accounting package that’s affordable and intuitive, regardless of the industry in which you operate. From customized reporting to excellent Customer Service, the USC Accounting System can be tailored to meet your specialized needs.

**USC ACCOUNTING MODULES**

- General Ledger
- Accounts Payable
- Accounts Receivable
- Payroll
- Purchase Order
- Inventory Control
- Order Processing
- Job Cost
- Point of Sale
- Bank Reconciliation
- Employee Training
- Equipment

For 40 years, we have been helping our valued Customers streamline their business processes, reduce complexity, and cut costs by designing software applications specifically for their operations.

Whether your business requires a simple straight-forward program or a more sophisticated and complex suite of programs, we have the expert resources to develop them in a timely and cost-effective manner.
We often hear of IT professionals moving from one job to another, always in search of a more challenging position. When it happens in your business, unnecessary and even critical interruption to your business flow could transpire. The last thing you need is a “revolving door” in your IT department.

So, whether you are looking to outsource your entire IT Support Staff, or simply in search of experienced and specialized IT personnel, U.S. Computer is ready to provide you the support you require and the peace of mind you deserve.

**USC IT OUTSOURCING**

- Specialized Skill Sets
- Pre-determined Experience Levels
- Competitive Rates
- No Overhead Expenses
- Managed by U.S. Computer
- Flexible Schedule

**USC HELP DESK & DESK SIDE SUPPORT**

- Experienced and Loyal Individuals
- Competitive Rates
- No Overhead Expenses
- Managed by U.S. Computer
- Part-time, Full-time, On-Demand
- Remote or Onsite

Cloud Backup solutions abound ... but rarely are their physical locations publicized, professing that their “cheap price” is the important point, not the physical location of YOUR data.

U.S. Computer feels that a company should absolutely know where their data is at ALL times, especially during a catastrophic event. Don’t be held hostage to a “1-800” number.

**USC OFFSITE DATA BACKUP**

- A PRIVATE Louisiana Data Center
- A PRIVATE West Coast Data Center
- Local support for recovery/restoration
- Equipment provided at no charge
- Fully encrypted backups and replications
- Bare-metal recovery
Why U.S. Computer?

... Because we provide quality service by promptly, courteously, and effectively addressing the business and technical needs of our Customers, while always maintaining a deep awareness of safety, cost-effectiveness and overall Customer Satisfaction.

- We have been in business since 1976
- We have nationwide presence but are locally owned and operated
- We are a name you can trust and depend on
- We believe in the value of a long-lasting business relationship
- We believe in getting the job done right - THE FIRST TIME
- We take pride in what we do and we do IT well
